TUESDAY SEPTEMBER 09, 2025—3:15PM TO 4:30PM
IN-PERSON AND ONLINE (VIA ZOOM)
AGENDA**

1.0 CALL TO ORDER and INDIGENOUS LANDS ACKNOWLEDGMENT

The District of Wells is located in the shared ancestral territories of the Lhtako Dene Nation, a shared territory also with Dakelh (Carrier) and Secwépemc (Shuswap) Peoples. Several nations have history and territory in the area, including Lhatko, Nazko, Lhoosk'uz, Ulkatcho, ?Esdilagh, Xat'sūll, Simpcw, and Lheidli. Evidence of early indigenous settlement in the region dates back over 10,000 years.

3.0 CORRESPONDENCE—NIL

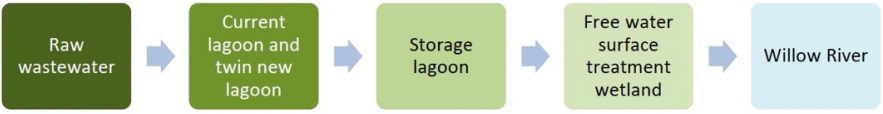

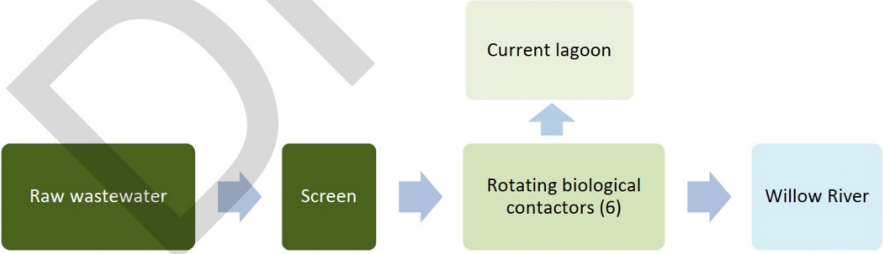

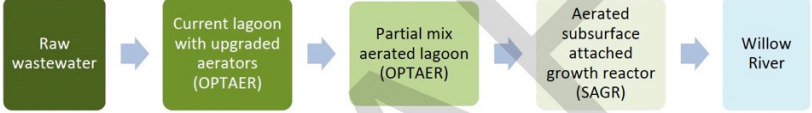

4.0 DELEGATIONS AND PRESENTATIONS--NIL

5.0 UNFINISHED BUSINESS

5.1 Strategic Priorities Projects—Incremental Information Only

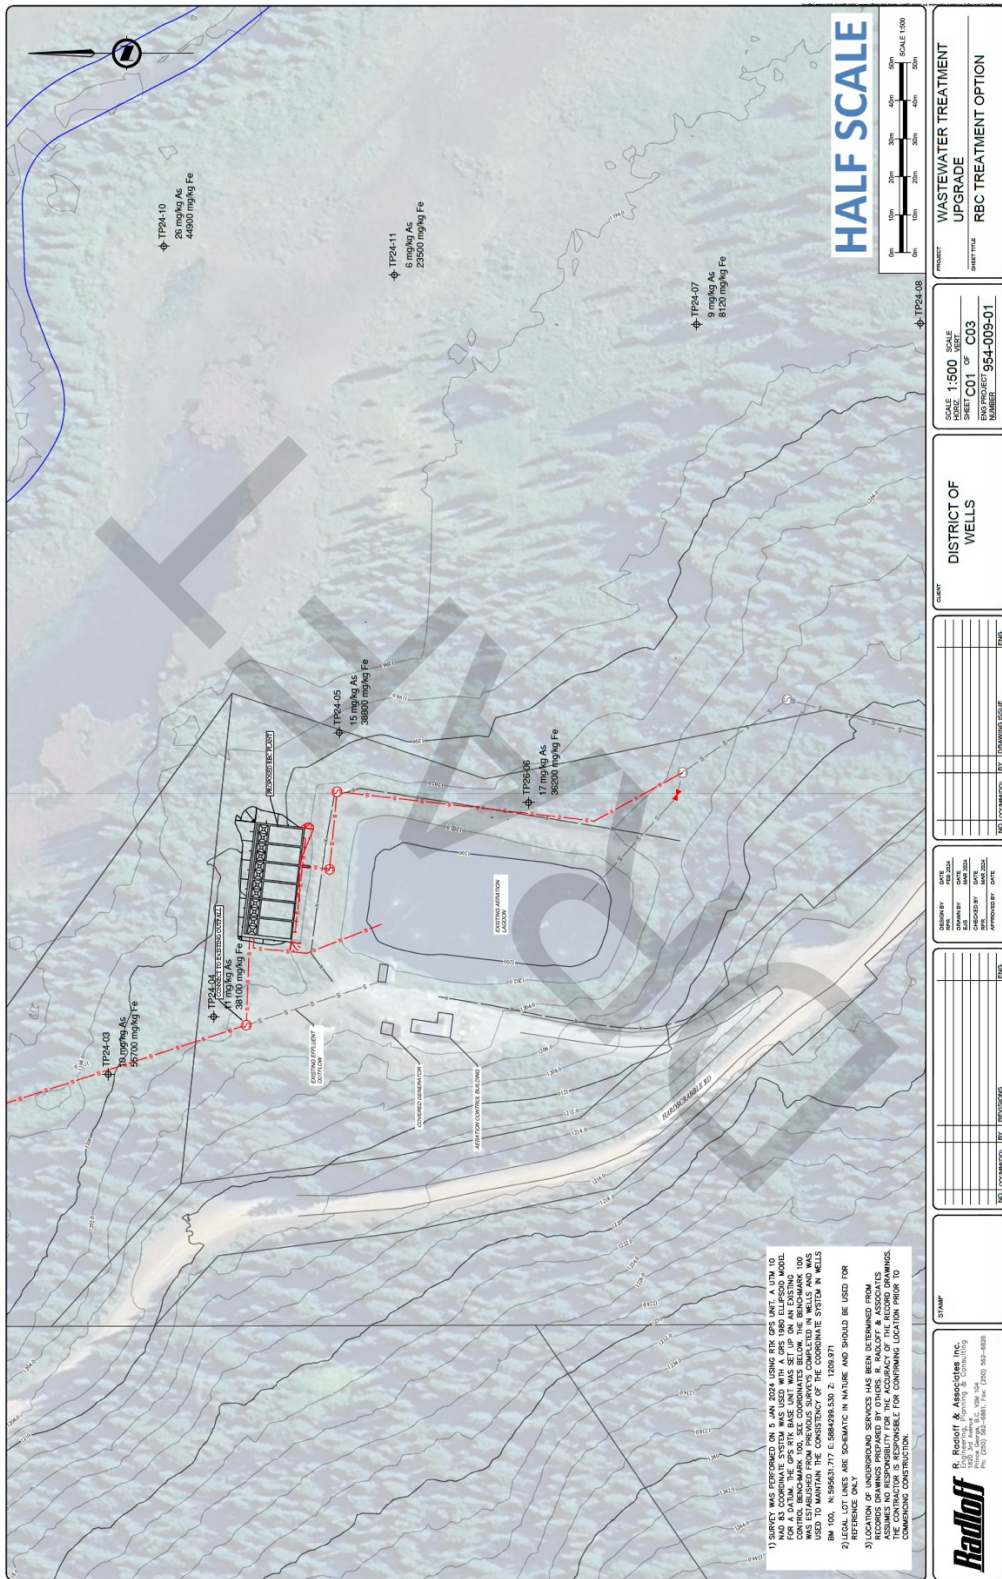

- P002—Waste Water Project—Collection System and Treatment. The Project is estimated at \$26 million to \$31 million. **Overland waste water outfall installed on Emergency Basis; focus not on new underground waste water outfall.**

P002—OPTION 2 (REVISION 1) is the Preferred Option at this time.

<p>OPTION 1 – FREE WATER SURFACE WETLAND</p> <p>This option is a three-step treatment process. Step 1 uses the current lagoon for flow attenuation and primary treatment and constructs a new identical lagoon in parallel to satisfy the municipal wastewater regulation (MWR) redundancy requirements. This will allow Wells operations staff to isolate and dewater each cell to handle operation and maintenance as required.</p>
 <p style="text-align: center;"><i>Figure 1: Option 1 - Free water surface wetland</i></p>
<p>OPTION 2 (REVISION 1) - ROTATING BIOLOGICAL CONTACTORS</p> <p>Option 2 uses rotating biological contactors (RBCs) as the main treatment method. Raw wastewater flows through a screening system to remove any large objects, then proceeds directly to the RBCs. In terms of mechanical wastewater treatment, RBCs are a simple treatment solution that can achieve very good effluent quality. No settling is provided beforehand to minimize heat loss from the wastewater, which has been measured to be seasonally very cold in Wells.</p>
 <p style="text-align: center;"><i>Figure 2: Option 2 – RBC process</i></p>
<p>OPTION 3 (REVISION 1) – AERATED LAGOONS AND AERATED SUBSURFACE NITRIFICATION BED</p> <p>This option involves refurbishing the current lagoon with a new liner and aerators, adding a second larger lined aerated lagoon, and installing a subsurface aerated gravel bed covered with a layer of mulch. A new building would be constructed to house the blowers for the aeration system, replacing the existing structure.</p>

5.2 Strategic Priorities Project—Incremental Information Only from Mayor Coleman:

- P002 Wastewater Project - Emergency overland installation of treated wastewater line completed Friday, August 16th after underground sewer line breach. Installation went through all regulatory requirements with oversight engineer and engineering firm approval, and a permanent underground line replacement will proceed once final permit is received. The mayor also confirmed the RBC (Rotating Biological Contactor) system will be housed to handle cold weather conditions which will also help reduce noise from the system. System power requirements can be met with recent 200-amp electrical upgrade.
- P014.1 FireSmart - Lhtako Dene Nation selected Rob Zappone as their FireSmart coordinator. The District will hire their FireSmart coordinator this year. Limited work is expected to be completed in 2025 with potential light work in fall. Budget carryover will occur. The priority focus will be protecting homes by removing hazards from town center outward.
- P018 Community Forest Expansion - Ministry of Environment regulators delayed data analysis completion until first quarter 2026 due to ministry reorganizations. The Northern Health portion is complete. The community presentation and full update is now scheduled for first quarter 2026
- P050.7 Lhtako Dene Nation Partnerships – The Project Charter was successfully signed August 2nd, 2025, at the Lhtako Dene Pow Wow with Chief and press present. The Charter was distributed to Municipal Affairs, Union of BC Municipalities, and other involved funders.

6.1.1 September meeting schedule changes

- Only one meeting is scheduled for September (Sept 9, 2025) due to the UBCM conference September 22nd-26th.
- The September 16, 2025, meeting previously scheduled will be removed from the schedule.
- Meeting time confirmed as 2:00 PM for the September 9, 2025, meeting. October 7th meeting time to be reconfirmed later.

6.2 CAO Reports

6.2.1 Fitness Centre expansion and SCADA system

- The Fitness center is experiencing high membership demand requiring equipment additions and expansion. A Cardio Room is being created in adjacent space with the Public Works manager and Works crew managing the setup.
- SCADA (Supervisory Control and Data Acquisition) system procurement investigation underway for water and wastewater facilities. A SCADA System will enable remote monitoring of treatment facilities and lift stations to optimize staff time and reduce costs.

6.2.2 Facilities, Parks and Recreation Master Plan

- Contract awarded to L&M Engineering from Prince George after following the District request for proposals (rfp) procurement policy. An initial meeting was completed with a positive response on professionalism of the contractor. The project is currently in best practices research phase studying other communities. A physical site assessment has been completed covering all parks facilities including boardwalk and community forest opportunities. The work plan will be shared with Community Buildings and Lands committee co-chairs. The focus is primarily on school facility and district properties with limited budget scope.

Report to Council

Date: September 9, 2025
To: Council
From: Chief Administrative Officer
Subject: Rural Economic Diversification and Infrastructure Program application
Department: Administration

Recommendation:

THAT Council receives for information the report from the Chief Administrative Officer dated September 9, 2025, with respect to the Rural Economic Diversification and Infrastructure Program (REDIP) funding application for 2025;

AND THAT Council approves a District of Wells application to the fund in the Economic Capacity Building stream in the total amount of \$50,000 per year spread over three years with potential in year two or three for additional milestone-based Development funding of \$100,000.

Purpose:

To Receive Council support of an application to the REDIP Economic Capacity Building funding stream in the amount of \$50,000 per year for three years with potential for an additional \$100,000 of Development funding in year two or three. Applications must be submitted by the October 31, 2025 deadline.

Background:

The Rural Economic Diversification and Infrastructure Program (REDIP) is an annual grant funding program administered by the Ministry of Jobs and Economic Growth (JEG). REDIP supports rural communities throughout British Columbia to develop economic opportunities with a particular focus on three key areas:

- Economic diversification
- Economic capacity building
- Economic infrastructure development

In fiscal year (FY) 2025-26 the REDIP program is focused on strategic investments to support the most critical economic development opportunities in rural communities. There are four funding categories: Capacity; Development; Implementation; and Transition.

**DISTRICT OF WELLS REGULAR COUNCIL MEETING
TUESDAY SEPTEMBER 09, 2025—3:15PM TO 4:30PM
IN-PERSON AND ONLINE (VIA ZOOM)
AGENDA**

Under the Capacity funding stream 100% of project cost including additional year two or three Development funding is eligible for funding. Applications under the Development and Infrastructure streams are eligible for 60% – 80% of project cost funding with the remainder to be provided by the applicant or project partner(s). Transition funding eligibility is specific to the application.

The District has applied under the Infrastructure stream with the Wells-Barkerville Culture and Recreation Centre business centre as a project but has been unsuccessful in the last three funding openings and applications. After recommended consultation with Regional Economic Operations Branch staff, we have been advised that the most likely route to success is through the Capacity Building stream which exists to help communities build internal capacity for economic development.

The Capacity grant aims to build the economic capacity of small rural communities and provide or improve their ability to support economic diversification. Funded applicants will also be eligible to access up to \$100,000 in milestone-based development stream funding, based on the submission and approval of required reporting.

Eligible capacity project types include:

- Community assessment projects such as identifying community economic development capacity, community needs and/or opportunities.
- Capacity building projects such as strengthening local economic development capacity through targeted coaching, job shadowing, mentorship, and/or professional development. Engagement projects such as community consultation, project identification and/or fostering in-house economic development services and resources.
- Staff recruitment and retention projects such as ones that reduce staff turnover, enhance stability, or temporarily increase staff positions, time and/or resources.

Given the additional opportunities and strains presented by the Barkerville Gold Mine project, District staff recommend an application proposing a project that would add additional capacity in terms of staff positions, time and/or resources. Additional resources could be focused upon community development supporting economic diversification in the areas of housing, transportation, cultural, arts, tourism, and recreational opportunities. Access to Capacity stream funding could facilitate development of strategies to address shortcomings. Staff propose to work with REDIP regional staff to develop and fine tune the District of Wells REDIP funding application.

Based on the above, Council's support of this grant funding application is respectfully requested.

Financial/Budgetary Considerations:

Funding is provided upon reporting and/or workplan milestones. Bridging is required.

J. Dombowsky, Chief Administrative Officer

District of Wells—Strategic Priorities Projects Tracking Grid
Version 8.0—2025 05 05

Overview

In June of 2022, the Municipal Affairs--Province of BC provided a Municipal Advisor, Gary Nason, to support the District of Wells with support to review Operations and Governance of the District of Wells. Out of that process, this Project Tracking Grid has been created and will be maintained and reported on at Regular Council meetings going forward.

Categories

Categories 1 to 3 were created to help place priority levels on projects and make clear what projects are ongoing and closed/completed. The following information clarifies each category:

Category 1: “Best efforts made to complete the project in 2024.”, or continue active work on the project if the project is multi-year and will carry-over to 2025 or beyond. (i.e. Major infrastructure or building upgrades largely dependent on external grant funding.)

Category 2: Subject to sufficient budgetary/grant funds and staffing capacity, commence project in 2024, with no commitment to complete the project in 2024 and carry forward to 2025 if appropriate.

Category 3: Reconsider dependent upon potential external grant availability and/or sufficient internal staff and budgetary capacity. Defer the project to at least 2025, or later in the remainder of the Council mandate—2024 to 2026

Appendix A: Completed Projects

Appendix B—P044 Series: Operations Projects

The following pages show the “Grid” of Projects for the District of Wells is organized in the Categories outlined above. Each Project has its own electronic and paper-based folder/file that holds all the details on all the Project.
